Get Ready for the Harvest

Buy your Bean Harvester at once so that you will have one when you are ready to harvest. You know that when your beans are ready to cut, they can't wait until you order a Harvester from Albuquerque or the factory.

We have only three Owens Harvesters left and two Oliver Harvester Attachments and these are all that we can sell you at the price we are now offering them for.

If you have an Oliver Cultivator then you can buy one of the Oliver Bean Harvester Attachments which goes on the cultivator in place of the gangs and saves you half the PRICE of the Harvester.

If you have a big crop of beans you will need a Thresher. We have the Owens No. 4 and the 16x20 sizes in stock and we are offering them in Mountainair for the price that the Manufacturer gets for them at the factory in Minneapolis.

The bean crop is good in our county. Prepare to take care of the Harvesting and Threshing.
